II MID EXAMINATION – OBJECTIVE PAPER		DATE:12/05/2017	
Year & Semester:	I B.Tech & II Sem	Branch: COMMON TO CIVIL, EEE & CSE	Time: 20 Mins
Name of the subject:	ENVIRONMENTAL STUDIES		Max.Marks: 10M
Regd.No. <input type="text"/>			

- The dispersal of individuals from the original population to new areas is []
(a) Immigration (b) Emigration
(c) Migration (d) None
- The enormous increase in population due to low death rate and high birth rate is termed as []
(a) Population growth (b) Exponential growth
(c) Population explosion (d) all.
- The Population stabilization ratio of the developed countries is []
(a) 2 (b) 1
(c) 3 (d) 0
- In which year India started the family planning programme. []
(a) 1952 (b) 1970
(c) 1980 (d) 1983
- Universal declaration of Human Rights (UNDHR) was established in the year []
(a) 1948 (b) 1946
(c) 1945 (d) 1956
- _____ provides Equality before law. []
(a) Article 16 (b) Article 15
(c) Article 14 (d) Article 13
- _____ Education is an instrument used to analyze our behavior []
(a) Formal education (b) Value education
(c) Value based environmental education (d) a & b
- _____ values tell us about the importance of human conditions []
(a) Global values (b) Actual values
(c) Universal values (d) Spiritual values
- AIDS was discovered in the year []
(a) 1980 (b) 1981
(c) 1982 (d) 1983

(P.T.O)

(a) Article 16 (b) Article 15
(c) Article 14 (d) Article 13
- _____ Education is an instrument used to analyze our behavior []
(a) Formal education (b) Value education
(c) Value based environmental education (d) a & b
- _____ values tell us about the importance of human conditions []
(a) Global values (b) Actual values
(c) Universal values (d) Spiritual values
- AIDS was discovered in the year []
(a) 1980 (b) 1981
(c) 1982 (d) 1983

(P.T.O)

10. The factor that is responsible for HIV transmission is []
(a) Tears (b) Food
(c) Needles (d) Toilets
11. Minimata disease occurred due to consumption of fish contaminated with []
(a) Silver (b) Mercury
(c) Platinum (d) DDT
12. The most important indoor air pollutant is []
(a) SO₂ (b) CO₂
(c) NO₂ (d) Radon Gas
13. Damage to leaf structure by air pollutants causes []
(a) Dead areas of leaf (b) Chlorophyll reduction
(c) Dropping of leaf (d) All of these
14. Industrial wastes may contain toxic []
(a) Chemicals (b) Phenols
(c) Acids (d) All of these
15. Thermal pollution can be controlled by []
(a) Cooling ponds (b) Spray ponds
(c) Cooling towers (d) All of these
16. Oil in water affects fish by affecting []
(a) Gills (b) Scales
(c) Eyes (d) None of the these
17. Bhopal Gas tragedy occurred due to leakage of []
(a) MIC (b) DDT
(c) SO₂ (d) Dioxins
18. The urban solid waste materials that can be degraded by microorganisms are []
called
(a) Biodegradable wastes (b) Non-Biodegradable wastes
(c) Both (d) None
19. The continuous oil films in Marine water causes []
(a) Photosynthesis is inhibited (b) Hypothermia it seen
(c) Egg shells are damaged in buds (d) All of these
20. The addition of undesirable heat to the water body is called []
(a) Marine pollution (b) Thermal pollution
(c) Nuclear pollution (d) None of these

10. The factor that is responsible for HIV transmission is
(a) Tears (b) Food
(c) Needles (d) Toilets
11. Minimata disease occurred due to consumption of fish contaminated with
(a) Silver (b) Mercury
(c) Platinum (d) DDT
12. The most important indoor air pollutant is
(a) SO₂ (b) CO₂
(c) NO₂ (d) Radon Gas
13. Damage to leaf structure by air pollutants causes
(a) Dead areas of leaf (b) Chlorophyll reduction
(c) Dropping of leaf (d) All of these
14. Industrial wastes may contain toxic
(a) Chemicals (b) Phenols
(c) Acids (d) All of these
15. Thermal pollution can be controlled by
(a) Cooling ponds (b) Spray ponds
(c) Cooling towers (d) All of these
16. Oil in water affects fish by affecting
(a) Gills (b) Scales
