A Report on visit to AMBIKA SISHU KENDRA under NSS activity

“Service to disabled is the most prominent of all the services”

With the above motive, as always this year also the students of second MBA under NSS activity visited Ambika Sishu Kendra, a school for disabled children on 18th March, 2017. The Principal of School, Dr. Krishnaveni extended a warm welcome to all GPCET students. The students were given certain inputs regarding the disabilities prevailing and even they were asked to help such disabled children by providing them small job opportunities. Later performances of the students of Ambika Sishu Kendra began that were eye opening.

The MBA students were asked to go around the classes and see how the learning of the disabled children took place. There were even creative things like candles, photo frames, and ear rings etc; which were handmade by Ambika Sishu Kendra students.

The visits gave better understanding about the community and boost the interest in being a responsible citizen.
