Section:

Roll No:

Time: 20 MIN

Max.Marks:10

I Choose the correct alternative:

1. _____ is used to display a list of vertically scrolling items. []
a)Grid view b)page viewer c)list view d) all of the above.
2. _____ is similar to drop down list that displays list of items. []
a)alert dialogs b)spinner view c)list view d)grid view.
3. _____ control is view group used to display text and image in a form of a rectangular scrollable grid.
a) page viewer b)grid view c)list view d)spinner view []
- 4.the view pager require a _____ to define and load the data for each page.
a)string resource b)array c)list of items d)data adapter. []
5. _____ is used to track the objects allocated to an application. []
a)allocation tracker b)tracker c)object allocator d) none.
6. _____ is used to pause the execution of an application temporarily.
a)console b)an error c) break point d)None. []
7. _____ button is used to collapse all the exapanded elements in the view.
a)expand all b)skip all c)remove all d) collapse all. []
8. _____ is a small window that pops up to interact with a user .
a)view control b)dialog control c)fragment d) frame. []
9. _____ is used to display text message in dialog box.
a)get msg() b)printf() c) print msg() d) set msg(). []
- 10.____ is used to manage frgments in an activity.
a)fragment manager b)fragmanr_manager c)F_manager d) All . []

=====

I Choose the correct alternative:

1. _____ is used to display a list of vertically scrolling items. []
a)Grid view b)page viewer c)list view d) all of the above.
2. _____ is similar to drop down list that displays list of items. []
a)alert dialogs b)spinner view c)list view d)grid view.
3. _____ control is view group used to display text and image in a form of a rectangular scrollable grid.
a) page viewer b)grid view c)list view d)spinner view []
- 4.the view pager require a _____ to define and load the data for each page.
a)string resource b)array c)list of items d)data adapter. []
5. _____ is used to track the objects allocated to an application.
a)allocation tracker b)tracker c)object allocator d) none. []
6. _____ is used to pause the execution of an application temporarily.
a)console b)an error c) break point d)None. []
7. _____ button is used to collapse all the exapanded elements in the view.
a)expand all b)skip all c)remove all d) collapse all. []
8. _____ is a small window that pops up to interact with a user .
a)view control b)dialog control c)fragment d) frame. []
9. _____ is used to display text message in dialog box.
a)get msg() b)printf() c) print msg() d) set msg(). []
- 10.____is used to manage frgments in an activity.
a)fragment manager b)fragmanr_manager c)F_manager d) All . []

Choose the correct alternative:

- 11.Every menu item is assigned with _____ []
a)resource id b)xml file c)sub menu d) all
- 12._____ is component of action bar. []
a)activity title b)tabs c)overflow menu d) all
- 13._____ is defined as the pointer that points at the result set of the underlying data.
a)array b)cursor c)trigger d)pointer array. []
- 14.the list of files and directories in the sub directory by _____ command.
a)sqlite3 b).schema c)stable d)ls []
- 15._____ class is used to define an object that manages the notification.
a)notification b)notification_manager c)notification manger d) all []
- 16.which of the following is the method that is used to broad cast internet
a)send broad cast() b).put extra () c)set action() d)all. []
- 17.themes are applied to an application by using _____ attribute.
a)android :theme b)android :style c)android :layout d)theme. []
- 18._____ folder contains the assests files in raw file format.
a)application b)assests c)resources d)None []
- 19._____ attribute aligns the content of the control in the linear layout [].
a)android:align b)android :padding c)android :orientation d)android : gravity
- 20.which of the following are the paramenters are passed to a query method for executing quieres
a)db.table b) order c)group_by d)all []

Choose the correct alternative:

- 11.Every menu item is assigned with _____ []
a)resource id b)xml file c)sub menu d) all
- 12._____ is component of action bar. []
a)activity title b)tabs c)overflow menu d) all
- 13._____ is defined as the pointer that points at the result set of the underlying data.
a)array b)cursor c)trigger d)pointer array. []
- 14.the list of files and directories in the sub directory by _____ command.
a)sqlite3 b).schema c)stable d)ls []
- 15._____ class is used to define an object that manages the notification.
a)notification b)notification_manager c)notification manger d) all []
- 16.which of the following is the method that is used to broad cast internet
a)send broad cast() b).put extra () c)set action() d)all. []
- 17.themes are applied to an application by using _____ attribute.
a)android :theme b)android :style c)android :layout d)theme. []
- 18._____ folder contains the assest files in raw file format.
a)application b)assests c)resources d)None []
- 19._____ attribute aligns the content of the control in the linear layout [].
a)android:align b)android :padding c)android :orientation d)android : gravity
- 20.which of the following are the paramenters are passed to a query method for executing quieres
a)db.table b) order c)group_by d)all []

a)db.table b) order c)group_by d)all []

Choose the correct alternative:

11. _____ is used to display a list of vertically scrolling items.

a)Grid view b)page viewer c)list view d) all of the above. []

12. _____ is similar to drop down list that displays list of items.

a)alert dialogs b)spinner view c)list view d)grid view. []

13. _____ control is view group used to display text and image in a form of a rectangular scrollable grid.

a) page viewer b)grid view c)list view d)spinner view []

14. the view pager require a _____ to define and load the data for each page.

a)string resource b)array c)list of items d)data adapter. []

15. _____ is used to track the objects allocated to an application.

a)allocation tracker b)tracker c)object allocator d) none. []

16. _____ is used to pause the execution of an application temporarily.

a)console b)an error c) break point d)None. []

17. _____ button is used to collapse all the expanded elements in the view.

a)expand all b)skip all c)remove all d) collapse all. []

18. _____ is a small window that pops up to interact with a user .

a)view control b)dialog control c)fragment d) frame. []

19. _____ is used to display text message in dialog box.

a)get msg() b)printf() c) print msg() d) set msg(). []

20. _____ is used to manage fragments in an activity.

a)fragment manager b)fragmanr_manager c)F_manager d) All []

Choose the correct alternative:

11. _____ is used to display a list of vertically scrolling items.

- a)Grid view b)page viewer c)list view d) all of the above. []

12. _____ is similar to drop down list that displays list of items.

- a)alert dialogs b)spinner view c)list view d)grid view. []

13. _____ control is view group used to display text and image in a form of a rectangular scrollable grid.

- a) page viewer b)grid view c)list view d)spinner view []

14. the view pager require a _____ to define and load the data for each page.

- a)string resource b)array c)list of items d)data adapter. []

15. _____ is used to track the objects allocated to an application.

- a)allocation tracker b)tracker c)object allocator d) none. []

16. _____ is used to pause the execution of an application temporarily.

- a)console b)an error c) break point d)None. []

17. _____ button is used to collapse all the expanded elements in the view.

- a)expand all b)skip all c)remove all d) collapse all. []

18. _____ is a small window that pops up to interact with a user .

- a)view control b)dialog control c)fragment d) frame. []

19. _____ is used to display text message in dialog box.

- a)get msg() b)printf() c) print msg() d) set msg(). []

20. _____ is used to manage fragments in an activity.

- a)fragment manager b)fragmanr_manager c)F_manager d) All []
