10-02-2023

**REPORT ON “ONE DAY TECHNICAL WRITING COMPETITION”**

The Department of Mechanical Engineering organized Technical WRITING on Robot Kinematics to the students of III B.Tech in collaboration with IIC, from 09-03-2023 to 11-03-2023.

In robotics, robot kinematics applies geometry to the study of the movement of multi-degree of freedom kinematic chains that form the structure of robotic systems. The emphasis on geometry means that the links of the robot are modeled as rigid bodies and its joints are assumed to provide pure rotation or translation

All the students were engulfed with lots of knowledge based on latest IOT technological Ideas and much more depth on Robotics subject. Each student in the class was highly benefited with this event conduction.

FEW CLICKS OF CONDUCTION OF COMPETITION.....

We also announced winners in order to motivate students for further events and our prize winners are as follows.....

SECOND PRIZE WINNER

MR.SAI KIRAN  
KALYAN

FIRST PRIZE WINNER

MR. PAVAN
