

YEARLY STATUS REPORT - 2022-2023

Part A

Data of the Institution

1.Name of the Institution

G.Pullaiah College of Engineering and Technology

- Name of the Head of the institution **Dr.C.Srinivasa Rao**
- Designation **Principal**
- Does the institution function from its own campus? **Yes**

- Phone No. of the Principal **08518285088**
- Alternate phone No. **08518285088**
- Mobile No. (Principal) **9246922869**
- Registered e-mail ID (Principal) **principal@gpcet.ac.in**
- Address **Venkayapalli(V),Nandikotkur Road**
- City/Town **Kurnool**
- State/UT **Andhra Pradesh**
- Pin Code **518452**

2.Institutional status

- Autonomous Status (Provide the date of conferment of Autonomy) **20/08/2018**
- Type of Institution **Co-education**
- Location **Rural**

• Financial Status **Self-financing**

- Name of the IQAC Co-ordinator/Director **Dr Syed Afzal Basha**
- Phone No. **08518285088**
- Mobile No: **9885681573**
- IQAC e-mail ID **iqac@gpcet.ac.in**

3.Website address (Web link of the AQAR (Previous Academic Year)

<http://www.gpcet.ac.in/wp-content/uploads/2023/08/AQAR-Report-2021-22.pdf>

4.Was the Academic Calendar prepared for that year?

Yes

- if yes, whether it is uploaded in the Institutional website Web link:

<http://www.gpcet.ac.in/academiccalendars/>

5.Accreditation Details

Cycle	Grade	CGPA	Year of Accreditation	Validity from	Validity to
Cycle 1	A	3.03	2017	22/02/2017	31/12/2023

6.Date of Establishment of IQAC

27/01/2017

7.Provide the list of Special Status conferred by Central and/or State Government on the Institution/Department/Faculty/School (UGC/CSIR/DST/DBT/ICMR/TEQIP/World Bank/CPE of UGC, etc.)?

Institution/ Department/Faculty/School	Scheme	Funding Agency	Year of Award with Duration	Amount
--	--	--	01/07/2021	0

8.Provide details regarding the composition of the IQAC:

- Upload the latest notification regarding the composition of the IQAC by the HEI [View File](#)

9.No. of IQAC meetings held during the year **02**

- Were the minutes of IQAC meeting(s) and **Yes**

compliance to the decisions taken
uploaded on the institutional website?

- If No, please upload the minutes of the meeting(s) and Action Taken Report
- No File Uploaded

10. Did IQAC receive funding from any funding agency to support its activities during the year? **No**

- If yes, mention the amount

11. Significant contributions made by IQAC during the current year (maximum five bullets)

1. All the stakeholders i.e. faculty and students were encouraged to undergo research oriented activities and publish papers in reputed journals and conferences 2. The faculty were also encouraged and trained to take up ICT based learning in their respective classrooms 3. The internal audit of departments were conducted and remedial measures were suggested based on the report given by the internal audit Committee. 4. The institute participated in various ranking framework of ranking agencies thus highlighting the importance of obtaining NIRF ranking 5. Student Counseling and mentoring for the student Community were taken up effectively.

12. Plan of action chalked out by IQAC at the beginning of the academic year towards quality enhancement and the outcome achieved by the end of the academic year:

Plan of Action	Achievements/Outcomes
Academic Audit of Departments	Improved quality of teaching learning process involving ICT based learning
Preparation of Annual Quality Assurance Report (AQAR) 2022-2023.	AQAR relating to 2022-2023 is prepared
Enhancement of Teaching learning activities with combination of ICT tools	Teaching learning with combination of ICT tools and various pedagogies were implemented.
Submission of research proposals along with submission of patents.	Research and Development center submitted research proposals for various funding agencies and review by agencies is in progress. Also good number of patents have been filed by the Institute Successfully

13. Was the AQAR placed before the statutory body? **Yes**

- Name of the statutory body

Name of the statutory body	Date of meeting(s)
Governing Body	10/03/2023

14. Was the institutional data submitted to AISHE ? **No**

- Year

15.Multidisciplinary / interdisciplinary	
A distinctive feature of G.Pullaiah College of Engineering and Technology is the sustained effort of its IQAC towards	

curriculum enrichment through interdisciplinary and multidisciplinary activities as they provide a social context and perspective to the teaching-learning process and an opportunity to broaden the knowledge gained from regular curricular activities. Recognizing the future paradigm shift of higher education towards a multidisciplinary model, as envisaged in the new education policy of the government, this endeavor of the IQAC reflects foresight and prepares the institution for seamlessly adopting the new policy, when implemented. Our college has always strived for a multidisciplinary approach in its academic as well as co-curricular activities. Students are encouraged to undergo student projects in the Multidisciplinary/Interdisciplinary mode by formulating teams from different courses. Seminar/ Lecture /Webinar/Poster presentation/ Quizzes on interdisciplinary topics delivered both by college faculty and invited speakers. These lectures provide a unique opportunity to the students to realize the importance of the interdisciplinary approach in academics in solving issues of national and global importance. Lectures Cyber security/Entrepreneurship / socioeconomic impact / gender issues/ environmental awareness, sustainable development and many other relevant topics are held all the year round. The institution takes pride in its multicultural student composition which adds vibrancy to its ambience. In keeping with its vision, the spirit of inclusiveness is evident in all college activities. Welfare schemes are extended to all students regardless of ethnic and economic background.

16.Academic bank of credits (ABC):

Academic Bank of Credits (ABC) has been thought upon upon the directives of National Academic Depository and is a virtual/digital storehouse that contains the information of the credits earned by individual students throughout their learning journey. As we are an autonomous institution, the Academic Bank of Credits are stored in our digital campus software data base. We have indeed ensured that the academic bank of credits is successfully implemented for the benefit of student Community.

17.Skill development:

G.Pullaiah College off Engineering and Technology gives high preference to develop the skills of the students during their course of study. It ensures that the students are made Industry ready by training them in various advanced Courses both through offline and online. It is ensured that the skill Courses are implanted into the curriculum so that the student also does

not feel any burden regarding the taking up of the Course. The following are the various skill development courses being taken up by the students across various departments.

1. Data Science
2. Artificial Intelligence
3. NI Lab VIEW
4. Programmable Logic Controllers
5. Estimation and Costing
6. Cyber Security
7. Web Designing and R Programming

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

Faculty and students are completing the MOOC courses through AICTE Swayam and NPTEL platforms. Institute has NPTEL local chapter. More than 200 students and faculty completed their MOOCs. The UG and PG curriculum is having the components on Indian traditional knowledge, Constitution of India, Human values and professional ethics etc. Introducing culture related programs in subjects such as Indian languages, yoga, life skills, history, culture, and modern India. Establishment of various clubs for sports, dance, music, photography, fine arts, theatre activities, extension activities, literary activities, animation and designing etc. for up-skilling of the students. Multidisciplinary and holistic education across the sciences, social sciences, arts, humanities, and sports in order to ensure the unity and integrity of overall knowledge.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

We have well-defined Programme Outcomes (PO), Programme Educational outcomes (PEO) and Course Outcomes (CO) on our website and in prominent places in the departments. Teachers are well oriented at the beginning of the academic session regarding these outcomes by the Academic Committee and IQAC. Institute is adopting Outcome Based Education (OBE) to bring changes to the curriculum by dynamically adapting to the requirements of the different stakeholders like Students, Parents, Industry Personnel and Recruiters. OBE is all about feedback and outcomes. Evaluation of Student Learning Outcomes is a computing tool for calculating course attainments and programme attainments as per OBE. It is integrated with all necessary criteria required for the assessment of students learning outcomes. It is helpful in the process of mapping the course outcomes with the program outcomes automatically through the digital platform.

It is made easier to get access to the authentic and accurate data of evaluation process of student learning outcomes. Attainment of course outcomes, program outcomes and program specific outcomes are performed through this module easily. It also gives CO/PO/PSO attainment and OBE feedback report. This platform enables to assess student graduate attributes to the degree of specificity in a learning outcome statement and that is achieved by the assessment criteria. Appropriate corrective measures are implemented to bridge the curriculum gaps by conducting various inviting lectures, professional activities like participating in design challenges, Modelling and Experimental Tools in engineering project expos etc.

20.Distance education/online education:

Institute has successfully imparted all its courses' content delivery in online mode using social media to communicate with the students, departmental WhatsApp Group, online classes using Google meet, Microsoft, Zoom and e-library like OPAC, etc. Rigorous teacher training in learner-centric pedagogy and on how to become high quality online content creators using online teaching platforms and tools Online education to be blended with experiential and activity based learning for desired outcomes. Digital content in multiple Indian languages to address the issue of linguistic diversity. One smart classroom with latest ICT facilities with sound technical support in each department. Autonomy to the faculty for curriculum designing, pedagogy and assessment strategies Empowering the faculty to adopt innovative pedagogical approaches to enable them to perform creatively. Recognition to the faculty adopting engaging innovative methods and tools for teaching. Freedom to the teacher to review and amend the curriculum, periodically. Empowering the teacher to devise and adopt appropriate strategies for formative and comprehensive assessment. Promoting the teachers to integrate research with teaching.

CURRICULAR ASPECTS	
1.1 - Curriculum Design and Development	
1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) of the various Programmes offered by the Institution.	
<p>G. Pullaiah College of Engineering and Technology has been functioning as an autonomous institution since 2018. The institution has embarked on its own curriculum design and development process after obtaining the autonomous status from UGC. The process remained a continuous and inclusive process. To begin with, the process commenced with introducing curricular reforms by modifying various courses that are relevant to the programmes. The recent revision of curriculum began with the announcement of model curriculum for engineering programmes by</p>	

the AICTE, New Delhi, APSHE, A.P and followed by the affiliating University, JNTUA. The Model curriculum proposes of 160 Credits. The credits distributions on the category of the courses are designed based on AICTE model curriculum. The initial phase for ensuring academic quality is the design of the curriculum, in particular, the types of courses, the number of electives, and the curricular structure, with complete details of the course title and course contents as per the regulations. The next phase, the Course Outcomes (COs) for every course are mapped with the POs of NBA and the Program Specific Outcomes (PSOs) of the program.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

The institution strongly believes in integrating cross cutting

issues relevant to professional ethics, gender, human values, environment and sustainability with a view to ensure holistic development of the students.

The students of GPCETand Technology are trained as empowered professionals with high values and ethics to contribute to the economic and technological development of the nation. The institution offers various courses prescribed by the affiliating University that integrate the crosscutting issues such as Human Values and Professional Ethics, Environment and Sustainability.

Human Values and Professional Ethics:

To make the students understand the moral values and professional ethics, the institution has made efforts towards developing value based education to students with a vision to promote values for a better citizen. Various courses like Universal human values and Social Values & Ethics are taught to the students in all the engineering programs to imbibe and practice human values and professional ethics.

Environment and Sustainability:

The institution offers a course on Environmental Science to the students of all programmes to educate the students about the need to sustain and preserve the environment.

File Description	Documents
Upload the list and description of the courses which address issues related to Gender, Environment and Sustainability, Human Values and Professional Ethics in the curriculum	View File

Any additional information	View File
Number of seats filled against seats reserved (Data Template)	View File

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses students' learning levels and organises special programmes for both slow and advanced learners.

Diagnosing learners' abilities:

A diagnostic test is conducted in their courses. Based on the performance in these tests, student's abilities are identified.

A structured Mentoring and Training Program is in place.

Every student is provided with a faculty mentor and the scheduled interactions are recorded in a well-designed MTP book. During the course of the interaction, the SWOC (Strengths Weaknesses, Opportunities, Challenges) analysis is recorded. Based on the interactions, SWOC, and regular performance, students' abilities are identified and necessary counseling, and training are provided to cater to the needs of slow and advanced learners.

Catering to the needs of advanced Learners:

Advanced learners are exposed to new technologies after class hours, by encouraging them to participate in the research activities in the RCC of the institution, Week-end projects lab.

Students are guided to take up additional courses viz. NPTEL courses, MOOCs, ORACLE certification, Microsoft certification, Pegasystems certification, learn Tools like R Lab, MATLAB, Android OS, PSCAD, Mi-Power, PSPICE, CAD/CAM.

Catering to the needs of slow Learners:

The Complete document can be observed in the additional information

Upload any additional information	View File

2.3 - Teaching- Learning Process

2.3.1 - Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences:

The philosophy of bringing books to life is made a regular practice in the Institute, which increases student's understanding of the class subject. GPCET's curriculum promotes student-centered methods such as experiential learning, project based learning, undergraduate research experience, internships, and so on. Experiential Engineering Education is the institutes' Progressive ladder for experiential learning (ExEED). All students participate in well-planned, supervised, and assessed experiential learning programs to stimulate academic inquiry by promoting interdisciplinary learning, strong technical skills in engineering design and computation, and key business skills to business model generation.

Technology assisted Tech Talk and Concept Video towards improving communication and presentation skills is made as a part of Continuous Internal Assessment does not give room to asses speaking and listening skills. videos and e-Learning materials, allows for the successful implementation of flipped classroom or blended learning. Students are also participating in online coding competitions through the Institute's Codetantra online open coding platform to gain competitive coding / programming skills. Tutorial question banks are prepared for every course to enable critical thinking among the students.

2.3.2 - Teachers use ICT-enabled tools including online resources for effective teaching and learning

ICT enables teachers and students to participate in a rapidly changing futuristic world in which teaching and learning activities are increasingly transformed and it would allow the students to have ready access to the advanced technology in engineering. Teachers at GPCET combine technology and traditional teaching modes to engage students in long-term learning. The institute uses Information and Communication Technology (ICT) in education to support, enhance, and optimize the delivery of education. The internet and its allied tools in classroom education are not new to the faculty and students of GPCET. Tools like the E-learning module of Edu prime software for posting academic plans and schedules, student attendance, conducting assessments like quizzes and assignments; PowerPoint presentations for regular classroom instruction, emails, and other social media platforms for sharing of learning material, NPTEL, and YouTube videos as supplementary teaching resources, other MOOC for additional teaching and learning content, etc. are used by the faculty. The Complete document can be observed in the additional information.

2.3.4 - Preparation and adherence to Academic Calendar and Teaching Plans by the institution

The Institute prepares and follows a well-planned academic calendar that includes the number of instructional days, the assessment plan, the start and end of the academic session, and the examination schedule. A minimum of 90 instructional days, or 16 weeks, are planned for each semester, excluding continuous assessments and examinations.

The academic council approves the academic calendar, which is then posted on the institute's website. National commemorative days are also observed on the academic calendar. Every Department also publishes an activity calendar, which includes guest lectures, seminars, conferences, workshops, and lectures by visiting faculty, among other things. The instructional content delivery schedule will be published one week before the semester begins. Every semester, the Institute holds two Continuous Internal Assessment (CIA) Examinations. The course allotment is done by the department head, and the teaching plan - schedule of instruction for each course is prepared by individual course faculty in accordance with the department event calendar. The Academic Monitoring Committee oversees curriculum development and implementation.

The faculty will prepare a holistic course plan that includes course prerequisites, objectives, course outcomes, a teaching plan, an articulation matrix, and a mapping of course outcomes to program outcomes and will submit it for necessary reviews and approvals. The course full stack and the contents delivered are audited for an effective teaching-learning process. The audit is conducted at regular intervals with both internal and external experts.

2.5.3 - IT integration and reforms in the examination procedures and processes including Continuous Internal Assessment (CIA) have brought in considerable improvement in the Examination Management System (EMS) of the Institution

The college has been continuously carrying out reforms that keep its examination system open for modifications and thus strengthen it from time to time, ensuring the system is foolproof and addresses the grievances of students if any. The institutional reforms in all the activities of the examination system are kept as per the AICTE norms for various engineering disciplines. The drivers for reforms in the examination system of engineering education have been incorporated into institution's examination system and they include OBE- the framework for the assessment process, evaluation of higher-order abilities, and professional skills in different forms like MOOCs, internship experience, and project works, Bloom's taxonomy for assessment design, etc. A credit system was introduced for the benefit of the students. • Quizzes / Project works and assignments are made part of the evaluation. • Tools

of information technology are utilized for most of the activities associated with the conduct of examinations, evaluation, and declaration of results. • Continuous Internal Assessment (CIA) includes Mid examinations twice in a semester for each course, periodical assignments/tests/quizzes, etc. to keep the students meaningfully engaged with the subject content throughout the semester. A credit based system was instituted for the ease of students. The examination system is completely IT integrated which enables the system for the fast processing of registration, conduction of examination, evaluation, attainment of outcomes, the announcement of results, and printing of grade sheets.

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme Outcomes and Course Outcomes for all Programmes offered by the institution are stated and displayed on the website and communicated to teachers and students

Outcome Based Education (OBE) has been implemented as part of GPCET curriculum development and teaching-learning process. The Institute's well-defined Vision and Mission statements are used to derive the vision and mission statements of each program. All of

the programs have stated their Program Educational Objectives (PEOs), which are in line with the program's vision and mission. All of the courses have defined Course Outcomes using the Revised Bloom's Taxonomy as a reference. All of the Outcomes incorporate faculty and alumni input while keeping current technology demand, job prospects, and ethical and societal requirements in mind. The institute website lists all of the PEOs/POs/PSOs/COs and their accomplishments. They are also prominently displayed throughout the institute, ensuring effective dissemination among stakeholders.

OBE awareness and expected outcomes are discussed in student orientation programs, faculty meetings, alumni/parent meetings, and so on. Through an intensive induction program, newly hired faculty are thoroughly inducted into OBE. Every faculty member

is given an OBE awareness quiz on a regular basis. An OBE booklet is uploaded to the institute website, where faculty, students, and other stakeholders can obtain the necessary information for the concerned person. Action taken reports on course and program outcomes, as well as the continuous improvement process, are also made available to stakeholders via the Institute's website

2.6.2 - Attainment of Programme Outcomes and Course Outcomes as evaluated by the institution

ACADEMIC YEAR: 2022-2023

Procedure for the attainment of Course Outcomes and Program Outcomes Attainment of course Outcomes:

- Step 1: Calculate the average attainment of each course outcome.
- Step 2: Calculate the average percentage attainment of each course outcome.

Measurement of Course Attainment Levels for University Examinations:

- Step 1: Calculate the average of university marks.
- Step 2: Calculate the average percentage of university marks.

Overall Direct Assessment including Internal and University Examinations:

1. Weightage to University Examinations: 70%
2. Weightage to Internal Examinations: 30%

Overall Attainment including Direct and Indirect Surveys:

1. Weightage to Direct Survey: 80%
2. Weightage to Indirect Survey(feedback): 20%

Measurement of Course attainment levels:

- Attainment Level 1: If the percentage of course outcome attainment is in between 40% and 55% (exclusive) in internal examinations.
- Attainment Level 2: If the percentage of course outcome attainment is in between 55% and 70 % (exclusive) in internal examinations.
- Attainment Level 3: If the percentage of course outcome attainment is greater than or equal to 70% in internal examinations

RESEARCH, INNOVATIONS AND EXTENSION

3.1 - Promotion of Research and Facilities

3.1.1 - The institution's research facilities are frequently updated and there is a well-defined policy for promotion of research which is uploaded on the institutional website and implemented

The College has established Research and Development Cell (R & D) in order to promote research activities among the students and staff of the college. All the Heads of departments also act as members of the cell which provides valuable suggestions/inputs in carrying out the research work in the College.

Functionalities of Research & Development Cell

The following are the functions and responsibilities of research and Development Cell

i)To identify the potential areas of research in various disciplines of engineering and form the faculty into various clusters based on their specialization. ii)To prepare and submit proposals to government agencies like AICTE, UGC, DST, IE(I) etc for obtaining funded projects. iii)To encourage multi-disciplinary research internally within the institute and externally with other organizations. iv)Encourage the staff to attend/publish papers in various National/International conferences of their specialised areas. v)To coordinate the research activities among the various departments of the college. vi)Encourage the faculty to attend various research oriented Faculty development programmes. vii)Encourage and motivate the staff to apply for Ph.D at various Universities. viii)To encourage the staff to publish their research works in reputed journals that have good impact factor and are Scopus indexed. ix)To plan for resource mobilization through industry interaction, consultancy and Extramural funding. x)Scrutinize the student's project proposals and send them to various agencies for financial support and recommend the suitable projects.

3.3 - Innovation Ecosystem

3.3.1 - Institution has created an ecosystem for innovations and creation and transfer of knowledge supported by dedicated centres for research, entrepreneurship, community orientation, incubation, etc.

The mission and ethos of GPCET are compassion and innovation. The institute uses a thriving ecosystem for innovations, knowledge development, and information transfer to gauge stakeholders' believe in it. A handful of the institute's many centres with outstanding state-of-the-art research facilities are the Technology Innovation Centre, Science and Technology Start-Up Enclave, MSMF Community Innovation Centre. Proactive applied research is at the forefront at GPCET, Research Centre, to address the technical and scientific difficulties that businesses and defence organisations encounter. The emphasis is on conducting research in fields related to education and creating tools and methods that meet the requirements of the university, the faculty, and potential students.

The prestigious G. Pullaiah College of Engineering and Technology is the brainchild of well-known educationalists Sri G. Pullaiah and his son Sri G.V.M. Mohan Kumar. It is sponsored by Sri Sai Krishna Educational Society, a society registered on February 15, 2006 under the A.P. Societies Registration Act No. 35 of 2001. Along with being approved by NAAC of UGC and NBA of AICTE, New Delhi, GPCET also received autonomous status as of 2018. In addition to receiving permanent affiliation under Jawaharlal Nehru Technological University Ananthapur, GPCET has received approval from AICTE, New Delhi. Additionally, it is a UGC recognised institution under 2(f) and 12(B) and an ISO 9001-2015 accredited institution.

3.6 - Extension Activities

3.6.1 - Extension activities carried out in the neighbourhood sensitising students to social issues for their holistic development, and the impact thereof during the year

The students of GPCET are encouraged to take up various societal activity under NSS wing in order to inculcate the sense of service and humanity. Good number of programs are taken up periodically so as to sensitize the surroundings villages according to the problem. A one unit of NSS wing is present in the college comprising of 100 students headed by NSS program officer who constantly drives and motivates the students accordingly.

Various programs taken up by NSS cell includes blood donation, swatch bharath, road safety, tree plantation, village awareness etc. The students regularly visit the concerned villages and interact with people in order to sensitize them about the care and precaution to be taken.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching-learning, viz., classrooms, laboratories, computing equipments, etc.

GPCET has developed cutting-edge modern infrastructure to meet the demands of a 21st-century technology-enabled teaching and learning eco system. The Institute has cutting-edge infrastructure to support teaching- learning and research activities. The institute spans meters. With THREE academic buildings housing -- smart classrooms, a central library, two ICT studio rooms, one media centre, one A/V centre, three flipped classrooms, two seminar halls, one central board room, seven departmental board rooms, one auditorium, ten research laboratories, four industry supported laboratories, 42 academic laboratories and community facilitation center for women, and center for development of skill and employability. There is campus-wide networking with 500 mbps internet connectivity, Wi-Fi, and CCTV. All programs share common central computing facility, which include 60 computers and one engineering workshop. Most of the classrooms have LED display panels for interactive teaching and multimedia experiences. Smart boards are also available in the flipped classrooms, conference rooms, and seminar halls. 750 desktop computers, 50 printers, 20 webcams, 12 scanners, and 100 headphones are among the computing facility available., 3 Wi- Fi access points, and 20 KVA UPS power backup are available as support infrastructure. Students can access a 500 mbps leased line with high-speed internet.

4.1.2 - The institution has adequate facilities for cultural activities, yoga, sports and games (indoor and outdoor) including gymnasium, yoga centre, auditorium etc.)

The Institute has adequate facilities for cultural activities, yoga, sports and games including yoga center, auditorium etc. To ensure students' holistic development, the curriculum is integrated with a variety of co-curricular and extra-curricular activities. The Institute has the latest facilities for student activities, including cultural activities, indoor games, and a yoga center. Several cultural events are organized every year and the college hosts a cultural festival. A Yoga Centre is provided for regular practice of Yoga and Meditation under the guidance of trained Yoga Instructor.

Indoor games such as badminton, table tennis, chess, and caroms are accommodated in indoor stadium. Outdoor game facilities include Volleyball / Throw ball, Basketball, Football, Kabadi, and separate Jumping and throwing sectors. The institute has a well established Gymnasium with a multi- gym and free weights. For large-scale events, the Institute has one open-air amphitheater that can seat 1000 students and one air-conditioned auditorium that can seat 200 capacities.

The students are encouraged to participate in sports activities and regular sports competitions are conducted for the benefit of the students. The college also caters to the needs of the students by establishing requisite facilities for the students in terms of sports and cultural activities.

4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS)

The college believes that the library is the epicenter of learning processes. The library supports the teaching learning process by offering various services like 1. Online Public Access Catalogue (OPAC) 2. Reprographic Service 3. Book Reservation 4. Internet Access 5. Reference Service 6. Competitive Examination Books 7. Multimedia Service 8. Old(Previous years) Question Papers from the University 9.

Online Book Renewal 10. Digital Library- E-Books, E-Journals & E-Lectures 11. Book bank facility for SC & ST students The library is fully computerized using LMS system covering almost all the functions of library. An exclusive environment namely digitalcampus is being utilized wherein the studnets can login into their accounts and indicate the book needed by them. All the books are bar-coded in the library & barcode laser scanners are used in the circulation counter for quicker book transaction. The college has a central library with carpet area of 952.97 sq m. and with all modern facilities. The students are encouraged by the faculty to make use of reference section and internet to collect additional information beyond curriculum.

4.3 - IT Infrastructure

4.3.1 - Institution has an IT policy covering Wi-Fi, cyber security, etc. and has allocated budget for updating its IT facilities

IT policy exists to maintain, secure, and ensure legal and appropriate use of information technology infrastructure established by the institute on the campus. This policy establishes institute-wide strategies and responsibilities for protecting the Confidentiality, Integrity, and Availability of the information assets that are accessed, created, managed, and/or controlled by the institute. Information assets addressed by the policy include data, information systems, computers, network devices, intellectual property, as well as documents and verbally communicated information. Undoubtedly, Intranet & Internet services have become most important resources in educational institutions & research organizations. Realizing the importance of these services, GPCET took initiative way back in 2000 and established strong network infrastructure. As the resources are not easily available for expansion to accommodate the continuous rise in internet needs, on the other hand uncontrolled, uninterrupted and free web access can give rise to activities that are neither related to teaching / learning processes nor governance of the institute.

4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities – classrooms, laboratory, library, sports complex, computers, etc.

Response:

The institution has established systems and procedures for maintaining and utilizing physical, academic and support facilities to enhance the quality of teaching and learning. The institution has a Campus Maintenance System (CMS) where maintenance related issues are discussed and resolved at the earliest.

Utilization of Laboratory:

Laboratory sessions are conducted in accordance with the schedule as per the curriculum plan. Each laboratory session is carried out under the supervision of the assigned faculty members and Lab instructors. In each laboratory, a log book is maintained for utilization of laboratory equipment. Each machine / instrument used by student is clearly mentioned in the logbook to facilitate proper monitoring and usage of the equipment. Before students start performing the experiment, laboratory instructor or the faculty in charge will deliver clear instructions that are to be followed by the students in handling the equipment/instrument in every laboratory session.

Maintenance of Laboratory:

The laboratory equipment is periodically inspected by faculty concerned and lab technicians for the accuracy and working conditions. Any mending and replacements of equipment or break down is checked immediately. This is a common practice across all the departments.

5.3.2 - Presence of an active Student Council and representation of students in academic and administrative bodies/committees of the institution

The institute has active committees involving students. The aim of the student activity cell is to associate students in both academic and student centric events. The various Student Committees comprise of representatives from all groups of students and are led by senior faculty or staff members of the Institute. The Committees include Departmental, Technical, Cultural, Social, Sports and such other Committees as per the interest of the students stepping up to take an active leadership role. Students involve in the activities to ensure curricular and social commitment of mind. The main purpose of these Committees is to ensure harmony across an ample, vibrant, and continuous range of campus events and activities in the course of an academic year. The committees ensure maximum involvement and engagement of all members of the Institute and its respective stakeholder groups. Working on these committees instills leadership and management skills among students. The students energetically organize activities for the students. The committees conduct meetings regularly at the beginning of every semester to monitor the scheduling of the events to be organized and measures to be taken for the smooth conduct of the scheduled events. The prominent committees involving students are as follows;

1. Training and Placement Committee 2. Library Committee 3. Research and Development Committee 4. Entrepreneurship Development Committee 5. College Academic Committee 6. Anti-Ragging committee 7. Grievance redressal Committee 8. Alumni Committee 9. Publication Committee 10. Transport Committee

5.4 - Alumni Engagement

5.4.1 - The Alumni Association and its Chapters (registered and functional) contribute significantly to the development of the institution through financial and other support services

The Higher Education Institution should have a strong network of its Alumni to strengthen mainly Industry- Academia bonding. The institute has art alumni association which regularly keeps in touch with the alumni and enquires about their progress. The detailed data base of all alumni with information about their employment, their employers and nature of present work: contact address: phone/mobile number and email IDs is also maintained by the association. Regular alumni meetings are also being held for the interaction with students.

The Institution has an excellent Alumni association with alumni excelling in their respective field. The Institution has produced leading software engineers and technologists. Many of the Alumni are also pursuing Master Degree from reputed academic institutions in India and abroad.

The alumni assist the final year students to get their projects: placements and Internship. They contribute to develop interpersonal skills and managerial skills. The Association helps in improvising the curriculum by their valuable feedback about the current trends and latest development in the Industry and contributes indirectly to increase the employability index. The following are the other key contributions of Alumni to the development of the institution.

1. Organizing and arranging Guest lectures for the benefit of students.

2. Providing Training on latest technologies.

3. Helping the placement cell for arranging placement drives.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of an effective leadership in tune with the vision and mission of the Institution

Vision: To prepare professionally superior and ethically strong global manpower in technology and management to serve the nation and the world in the 21st Century.

Mission: To strive hard in training the students with the current technology and motivate them to take up research problems and innovations associated with professional, personality development programs to meet the challenges in this competitive world in an efficient manner.

The overall administration is overseen by the Governing Body (GB) of the College. The Governing Body has been framed on the rules and regulations of the affiliating University and consists of people from academics, industry and independent authorities. The Principal is indeed responsible for implementation of strategic plan and reporting to GB. The GB periodically reviews the implementation of the strategic plan keeping in line with the institute's vision and mission. The periodical report about the various activities of the college is presented in the GB meeting by the Principal.

The management is also committed and performs the leadership role for effective and efficient conduct of teaching and learning process in the college. The responsibilities of governance include choosing the top academic/administrative functionaries and evaluating their performance, authorizing plans/commitments and evaluating the institute's performance.

6.1.2 - Effective leadership is reflected in various institutional practices such as decentralization and participative management

The management operates using a decentralized, collaborative strategy. Decentralization helps the management by delegating administrative and academic responsibilities to various heads. This objective promotes inclusiveness and participatory style of functioning As an integral part of this governance structure, the management delegates administrative and academic decision-making to the Principal, Academic Heads & Deans for smooth operation of the institutional activities.

The college includes all the stakeholders while framing various guidelines to fortify the systematic functioning of the college. There are several committees, both statutory and non-statutory to govern various activities in the institution. The minutes of the governing body, other committees and academic activities are published on the college website as an act of transparent governance. The information is also shared with the employees through various meetings and circulars from time to time. There are as many as active committees in the college which work constantly to uphold all-round development of the students. The institute follows well planned decentralized mechanism where in all the faculty is encouraged to participate in various committees for the overall development of the students.

GPCET pursues effective leadership through decentralized and participatory management that includes all stakeholders. The Principal is the institution's head, assisted by Department Heads, Deans, the Controller of Examinations, the Librarian, and the Administrative Officer. The delegation of power is carried

out in accordance with the organogram, which is available on the institute's website.

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ Perspective plan has been clearly articulated and implemented

The Institute has a well defined strategic plan to be implemented every year. The strategic plan is meticulously planned the IQAC team in consultation and approved by the Principal before taking it forward. The strategic plan consists of clearly set goals to be reached and the steps to be followed in reaching the specific goals. The plan consists of targets to be set with respect to research, various activities to be carried out for the benefit of student community, faculty development programs to be conducted and various activities to be planned for the overall holistic development of students and staff.

The feedback is also collected with respect to various activities being conducted previously and steps are also taken to correct them. The various aspects under which the strategic plan is developed includes the following:

1. Institutional Holistic Development

2. Infrastructure Development:

3. Strengthening Faculty:

4. Research and Development:

5. Student's development and participation:

6. Academic Excellence: 7. Examination Reforms

6.2.2 - The functioning of the various institutional bodies is effective and efficient as visible from the policies, administrative set-up, appointment and service rules, procedures, etc.

The management operates using a decentralized, collaborative strategy. Decentralization helps the management by delegating administrative and academic responsibilities to various heads. This objective promotes inclusiveness and participatory style offunctioning As an integral part of this governance structure, the management delegates administrative and academic decisionmaking to the Principal, Academic Heads & Deans for smooth operation of the institutional activities.

The college includes all the stakeholders while framing various guidelines to fortify the systematic functioning of the college. There are several committees, both statutory and non-statutory to govern various activities in the institution. The minutes of the governing body, other committees and academic activities are published on the college website as an act of transparent governance. The information is also shared with the employees through various meetings and circulars from time to time. There are as many as active committees in the college which work constantly to uphold all-round development of the students. The institute follows well planned decentralized mechanism where in all the faculty is encouraged to participate in various committees for the overall development of the students.

GPCET pursues effective leadership through decentralized and participatory management that includes all stakeholders. The Principal is the institution's head, assisted by Department Heads, Deans, the Controller of Examinations, the Librarian, and the Administrative Officer. The delegation of power is carried out in accordance with the organogram, which is available on the institute's website.

6.3 - Faculty Empowerment Strategies

6.3.1 - The institution has effective welfare measures for teaching and non-teaching staff and avenues for their career development/ progression

The College makes arrangements for availing all the government schemes such as Gratuity, Pension, Maternity Leave, Medical Facility, Leave on Overseas Project or Conference, Health Fund Scheme, Permission to attend FDP such as Orientation programmes and Refresher courses, short term courses, etc. for the career development and progression of the teaching as well as nonteaching staff. Besides the above, the following benefits are given to the teaching and non-teaching staff.

Financial Support

1.To the staff to attend workshops and conferences both at the national and international level For children's education of the non-teaching staff

2. For celebrating festivals, festival advance to the nonteaching and domestic staff

3.The staff of the institution also receives Provident Fund, permission to attend Faculty Development Programme, Maternity and with salary.

Cater to Emotional Needs

1.Staff Grievance Redressal Cell to address the issues and grievances of the staff

2.Availability of full-time professional counsellors for both staff and students

3.Indoor games facility for the staff to relax and to refresh physically and mentally

Avenues for Career Development and Progression

1.Initiation and training programmes for the newly recruited staff

2.Incentive in the form of salary hike for the staff of the self financed stream for completing their PhD degree

3.Various other training programmes such as item writing, research project etc for teaching fraternity, training on Public Finance Management System, Ms-Office non-teaching staff, and waste management, operating fire extinguisher training for domestic staff

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly

The institution is having well qualified and experienced practicing chartered accountant as external auditor who is auditing the accounts of the college once in a year .The auditors are appointed by the Chairman's office .In addition to

this, the institution is having consultants to give opinion on taxation and legal issues.

The college is also filing income tax return every year within the stipulated time.

The institution conducts effective internal and external financial audits regularly.

1. Internal Audit

Finance committee of the institute ensures effective budget utilization and monitors the financial transactions. The outcomes of the audit will be discussed in quarterly financial committee meetings and any finding of the audit will be addressed during this meeting. The internal audit helps the institute for the optimal allocation and utilization of the budget, confirming the compliance with legal and regulatory requirements. The internal audits will help the departments and other offices for effective utilization of budget.

2. External Audit

The institution also has external audit mechanism carried out by Mr.K.V.Krishnaiah, Chartered Accountants with FIRM REGN NO: 0080948. This statutory auditor audits the annual account and examines on a test basis evidences like fees collection, expenses. Any discrepancies will be discussed and sorted with the management (Society). Once all financial transactions are accounted, based on those financial statements like balance sheet and Income and Expenditure, statement is prepared for the financial year end. Such financial statements will be signed and approved by Auditor and Management.

6.4.3 - Institutional strategies for mobilisation of funds and the optimal utilisation of resources

Mobilization of Funds:

Most of the funds required by the institution are being met out of the amount generated through collection of fees.

The Government of Andhra Pradesh regulates fee to be collected from the students based on the comments/report submitted by Andhra Pradesh Higher Education Regulatory and Monitoring Commission (APHER&MC) after visiting the institutions. The tuition fee fixed for the institution depends on the infrastructure available, the faculty strength, and sanctioned students strength by JNTUA and AICTE for individual departments. The APHER&MC takes the data from respective colleges every year and conducts inspection to finalize the student's fees for undergraduate and post graduate courses.

The funds are granted through the collection of tuition fee as guided by the APHER&MC. The Tuition fee is collected annually. The other sources of income are:

1. Transport fees collected from students.

2. Honorarium for conducting various competitive exams

The Institution lends its infrastructure for external agencies like TCS for conducting exams such as AP-EAMCET, TS-EAMCET and GATE etc.

Strategies for optimal utilization of resources:

The Institution lends its infrastructure for external agencies like TCS for conducting exams such as AP-EAMCET, TS-EAMCET and GATE etc. The institution also offers its computing facilities to be utilized by local Government agencies to train its newly

recruited personnel.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing quality assurance strategies and processes visible in terms of incremental improvements made during the preceding year with regard to quality (in case of the First Cycle): Incremental improvements made during the preceding year with regard to quality and post-accreditation quality initiatives (Second and subsequent cycles)

Internal Quality Assurance Cell was recently established at the institution (2017-18) under the direction of the Head of the institution, with the IQAC Coordinator serving as member

Secretary. A qualified faculty member was requested to be delegated by each of the six departments to oversee qualityrelated activities within their respective departments under the supervision of the Coordinator (IQAC). The institution has managed to survive through a variety of organizational practices and academic initiatives that have seen advancements. Many of the previously used practices have improved as a result of the introduction of IQAC. The main objective of IQAC's establishment is to simplify current policies, practices, and processes to enhance the institute's performance as a whole.

The governing body creates and approves an IQAC committee to handle the plans and procedures for quality assurance. Academic performance, faculty recruitment, and training/qualification enhancement, Faculty Self-Appraisal, FDPs, and Training Programmes for Non-Teaching, Workshops on OBE, Conference Educational Reforms, Setting Quality Bench Marks, Key Performance Indicators, Auditing and Impact Mentoring, and Academic and Administrative Audit are all covered by the Institute's current policies on academic and administrative systems. IQAC has made a substantial contribution to the ongoing infrastructure improvements, teacher competency enhancements, and student empowerment for career readiness.

6.5.2 - The institution reviews its teaching-learning process, structures and methodologies of operation and learning outcomes at periodic intervals through its IQAC as per norms

The institute's internal quality assurance cell continuously evaluates the teaching-learning process and makes the required infrastructure adjustments for the institution's overall development. The IQAC focuses on many different factors, such as instructional methods, infrastructure, feedback systems, faculty and student publications, etc. To do this, the IQAC has put in place the following measures so that everyone is aware of the institutional process.

1. Internal academic audit.

2. Feedback on facilities.

1. Internal academic audit:

Every semester, an internal academic audit is carried out to evaluate the department's performance across several areas, including budget efficiency, faculty accomplishments, departmental physical resources, student research accomplishments, SWOC analysis, etc. This offers the department a chance to assess its strengths and shortcomings and lets it know where it is falling short. The departments will thus be aware of the areas they should pay particular attention to. Senior teachers from different departments will serve as audit members; they will visit the department and present a thorough report along with any recommendations that are required. In a school year, this internal audit will be carried out twice.

2. Feedback on facilities:

Students often provide comments online on the college's facilities, including the classrooms, ICT-based learning, libraries, WiFi, and other amenities. This does certainly offer a fair concept of how the learning process may be enhanced from the viewpoint of the learner. The feedback is collected once

every semester online, and students can provide their opinions on the lecturers and other campus amenities.

INSTITUTIONAL VALUES AND BEST PRACTICES

7.1 - Institutional Values and Social Responsibilities

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

a) Safety and Security:

GPCET is highly committed to provide a safe and secured environment for all the stakeholders to function in an environment which is free from abuse and ragging. The Institute

is highly committed to provide a zero-tolerance zone for ragging and ensure fundamental rights for all its stakeholders.

The following are initiatives that the institute has taken up to ensure safety and security for all the stakeholders.

1. Well trained security persons, who are highly committed are deployed at prominent places in the institute for safety and security of students and staff.

2. Wearing of Identity (ID) cards has been mandatory for all the staff and students. No one is allowed to enter the campus without a valid identity card.

3. Continuous CCTV monitoring has been ensured in the campus and hostels in order to prevent any unwanted incident.

4. Institute has a highly functional Anti-Ragging Cell which conducts many awareness programs. Also, every stakeholder is made aware of the consequences of ragging through various awareness programs and posters that have been displayed across the campus.

b) Counseling/Mentoring: Institute has an effective student mentoring system to take care of the psychological wellbeing of the students along with their academics. It is a well-known fact that the students require proper counseling/mentoring in order to guide them properly in their academics and other aspects. As a part of the above, a batch of 30 students is formed as group and a faculty is assigned to them as mentor.

<p>7.1.3 - Describe the facilities in the institution for the management of the following types of degradable and non-degradable waste (within a maximum of 200 words)</p> <p>Solid waste management:</p> <p>In order to dispose off solid waste, it is collected separately as dry and wet waste at the source. Separate dustbins are kept at the earmarked places in each floor for an effective collection of solid waste and to maintain a good hygienic environment in the campus. Cleaning of the dustbins is being done every day and the collected waste is disposed off in the place earmarked by local municipal authorities. Further, recycling waste like plastics, newspapers, etc. are given to the local vendor.</p> <p>Liquid Waste management:</p> <p>Institute has an established systematic sewage network throughout. The sewage water collected throughout is discharged into the main channel setup by municipal authorities through proper pipe mechanism. Regular monitoring of pipes is also done in order to avoid any sort of leakage.</p> <p>E-Waste Management:</p> <p>Institute has established a systematic procedure to manage the e-waste. At the end of useful life, the computer peripherals are collected from different locations of the campus. In addition, CDs, batteries, USB cables, and earphones are collected in separate bins as e-waste and disposed through certified vendor.</p> <p>Institute has adopted the following steps to reduce the generation of e-waste:</p> <p>Usage of CDs and CD drives has been minimized.</p> <p>Usage of temporary storage devices such as pen drives has also been limited.</p>	

Chemical waste management/ Biomedical waste management:

The chemicals employed in various labs are also disposed off at a place far away from human locality as indicated by local municipal authorities.

7.1.8 - Describe the Institutional efforts/initiatives in providing an inclusive environment i.e. tolerance and harmony towards cultural, regional, linguistic, communal, socio-economic and other diversities (within a maximum of 200 words).

G.Pullaiah College of Engineering and Technology displays immense pleasure and responsibility in the aspect of tolerance and harmony in the fields of cultural, regional, linguistic, communal, socio-economic and other diversities. With the precise inputs and efforts of the stakeholders, the institution has taken up various initiatives within and outside the campus to achieve the inclusive environment for all the students and staff.

Institute always focuses on a peaceful, healthy and comfortable campus for all the students. The students gain experience and cultivate social responsibility, and inculcate the interpersonal and intrapersonal skills through participating in various programs conducted in the college.

The NSS and other committees conduct many events to students to sensitize towards culture, social responsibility, and overall personality development. The main motto of these committees is to follow the personification of democratic living, respecting ours and others culture and uphold the need for self-less service.

Extra-Curricular Activities are regularly conducted to extract and expose the best hidden skills in the students. Few of the events are- singing competition, rangoli, quiz competition, etc. In these events, the students involve in groups and learn many things regarding working in a group. A healthy mandate is made

in the campus for each student to participate at least in any one of the events.

7.1.9 - Sensitization of students and employees of the institution to constitutional obligations: values, rights, duties and responsibilities of citizens:

The Institution organizes various activities for sensitization of the students and employees for inculcating values, rights, duties and responsibilities for being responsible citizens of India. The institute observes Rashtriya Ekta Diwas which is also known as National Unity Day on 31st October earmarking the birth anniversary of Sardar Vallabhbhai Patel, who worked hard in keeping India united. Institute celebrates this day, on which, the students and staff assemble to take the Rashtriya Ekta Diwas pledge. The institute also regularly conducts different competitions for students involving essay writing, seminars etc., on important days to make the students aware of their importance. Regular competitions on various topics such as Human Rights and Responsibilities, National Integration of India are conducted to create awareness among students about different human rights and responsibilities of Indian citizen and national integration to protect fundamental rights, which will create an opportunity to live together in peace and prosperity. Various competitions are also conducted on World Environment Day on various issues related to global warming to stimulate awareness about significance of a healthy environment. The topics for this competition will be selected by considering the theme of World Environment Day.

7.2 - Best Practices

7.2.1 - Provide the weblink on the Institutional website regarding the Best practices as per the prescribed format of NAAC

Title of the Practice: Implementation of innovative methods in teaching - learning process

Goal of the Practice: 1. Driving the concepts home through project based learning approach 2. Learning by doing 3. Inculcating cognitive & computational thinking and programming capabilities 4. Design and development of efficient and economical ways of solving real life problems Practice Students who build circuits in their very first year of engineering using electronic workbenches can design circuits to address practical problems by the time they reach final year. Programming has become an enigma for many engineering students. Using innovative software tools like programming workbench will motivate them to learn and apply code to solve practical problems. Also, e-Learning through Virtual labs, YouTube videos, MOOCs, TED lectures and other related sources make learning easy and pleasurable.

BEST PRACTICE -2

Title of the Practice: e- Governance

Goal of the Practice:

The goal of the practice is to provide effective and easy way to automate the functionalities of the Institute and to provide information about the students and staff to the stake

holders by way of digital campus software and college website. Digital campus software which is being used by our institute provides various types of educational related services like maintaining attendance, internal marks, work load of staff members, leave history, mentoring data etc., thereby reducing human error and paper work. The college website www.gpcet.ac.in provides information about the various departments of the institution, vision, mission, placement details, facilities provided etc.

7.3 - Institutional Distinctiveness

7.3.1 - Highlight the performance of the institution in an area distinct to its priority and thrust (within a maximum of 200 words)

The college has achieved the following ranks in various ranking procedures conducted by national wide agencies.

- G.Pullaiah College of Engineering and Technology has bagged 237th rank in top engineering colleges in India given by India Today MDRA survey 2023.
- G.Pullaiah College of Engineering and Technology has bagged 204th rank in top engineering Private colleges in India given by India Today MDRA survey 2023.
- G.Pullaiah College of Engineering and Technology has bagged 71st in Emerging engineering colleges in South India given by India Today MDRA survey 2023.
- G.Pullaiah College of Engineering and Technology has bagged 12th Rank among top engineering colleges excellence in India given by competition success review GHRDC engineering colleges' survey 2023.
- G.Pullaiah College of Engineering and Technology has bagged 7th Rank among top engineering colleges in Andhra Pradesh given by competition success review GHRDC engineering colleges' survey 2023.

- G.Pullaiah College of Engineering and Technology has bagged as best performing institute (Andhra Pradesh and Telangana Zone) given by EDUSkills.
- G.Pullaiah College of Engineering and Technology has received Certificate of excellence for implementing initiatives' in conformance national educational policy from ASSSOCHAM EDUTECH 100 summit, New Delhi.

7.3.2 - Plan of action for the next academic year

Plan of action for the next academic year 2023-24

1. To be recognized as Scientific and industrial research organization under Dept. of scientific and industrial research New Delhi.
2. To obtain NIRF ranking.
3. To obtain NBA accreditation in Tier-1 module
4. To obtain NAAC Re-accreditation under cycle-2.
5. To carry out good number of AICTE Virtual internships to our students.
6. To arrange training programmes for new faculty.
7. To motivate faculty to publish more number of papers in reputed journals.
8. To train the faculty in programming languages.
9. To conduct career guidance programs for students.
10. To organize training programs for non-teaching Staff.
